<u>Homework 1 (3pts)</u>

In this assignment, you are asked to create your first android app. To complete this task, ensure that you have correctly installed Android Studio or are using a classroom lab computer with Android Studio installed. Follow the steps outlined in class.. File -> New Project etc. to create your "Hello World" App . Name the project <your-name>1. Change the textview "Hello World" to "Hello <your name>" . Run your app.

For full credit, take a screenshot of your running emulator or Android device. Take a screenshot of AndroidManifest.xml. Combine both files to one PDF. Submit your assignment via the blackboard link as a PDF file.

NOTE:

Do not submit the Android Studio activity_main xml Design image. That is not proof that your app ran.

EXTRA CREDIT(1pt): Change the background of your App to a picture of your choosing.
